Re: Seismic data collection – Freeport, Texas

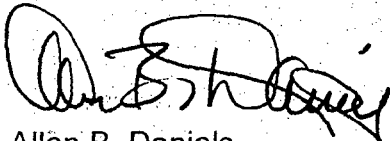

To Whom It May Concern:

LDL Coastal Limited LP is the owner of tracts 21, 21A, 21B, 22, 23, 24, 24A, 25, 55, 57 and 58, Subdivision 8, Brazos Coast Investment Company Subdivision, Brazoria County, Texas. This land is situated on both sides of Marlin Drive east of the Bridge Harbor subdivision.

Within the past several days marking flags and paint were observed, including some on our fenced property, indicating that your company had conducted or is planning to conduct seismic testing. This is to confirm that Seitel Data does not have permission to conduct such testing or set foot upon the property referenced above, and to request that you cease and desist all of your activities on the property immediately. We are currently performing work on the property pursuant to a directive from the U.S. Environmental Protection Agency. One of the parcels north of Marlin is the site of a former surface impoundment currently under investigation and we want to insure that no seismic activity is conducted which has any potential to disturb that.

Please contact the undersigned with any questions.

Sincerely,

Allen B. Daniels
Attorney for LDL Coastal Limited LP
